

# Framework for Business

Framework's customizable laptops are designed to evolve with your business's changing needs.

**Easy to upgrade and repair, offering the lowest total cost of ownership**

**Concierge service with a dedicated account manager**

**Immediate technical support with us and at your very own fingertips**

Framework is unmatched in its ability to meet your technology needs. We look forward to a long partnership with your business.

Contact us at [\*\*business@frame.work\*\*](mailto:business@frame.work) for more information.

Framework laptops are modular, which makes them **easy to upgrade and repair**, significantly **extends their lifespan** and **lowers your total cost of ownership**

**Fixit gave Framework a perfect 10/10!**

Our team will **deeply understand your business needs** and assist you with your Framework experience, starting from pre-purchase all the way through to using the devices in-life.

Your dedicated account manager can provide technical support, and you have the added benefit of being able to troubleshoot on your own.

Framework champions our customers' **right to repair** and offers a **wealth of detailed documentation to empower you**, like step-by-step guides, so you can self-serve everything from repairs to new component upgrades.
